

# Stop **Cutting** Hands. Start **Cutting** Costs.

**Avoid Costly Injury To Your Workers From Unsafe Tape Dispensers. Introducing the Safe And Affordable Sunbelt SEAL-SAFE™ Dispenser.**

The safety blade moves forward to cut the tape, only when you need it. Then the blade retracts back inside, safely & conveniently.

Avoid costly injury to your workers from unsafe tape dispenser blades easily and affordably with Sunbelt's SEAL-SAFE™ Dispenser. SEAL-SAFE™ Tape Dispensers come with a patented, retractable blade that pops out only when pressure is applied to the wiper. This exclusive feature provides an additional element of safety for your employees and your business. Emergency room fees to suture a severely cut hand from an ordinary tape dispenser blade could easily run three or four digits. Not to mention the subsequent loss of time to recover from such an injury. We offer a safe, intelligent product that contributes to the safety of your employees and saves you money in the long run.

*"...the injury is more serious than we first thought, I'm afraid he'll need the surgery after all"*
